

AMT series side tables

High Performance laboratory tables

The AMT series of side tables are available in a wide range of sizes and different worktop finishes to suit most requirements. The standard tables feature a white powder epoxy worktop bolted to a sturdy white epoxy powdered frame. The rigid frame has levelling feet which ensure the table is in excellent contact with the floor. A range of options includes: monitor arms and castor feet. The stainless range has pharma grade 304 series stainless tops DP finished 240 satin silcon and the Trespa range have 20mm Athlon tops with bevelled machined edges. Finally the S3 series have 316 grade tops which are bright polished and are suitable for the most demanding environments. Stainless frames are also available as well as custom shapes and sizes.
